Addendum to Earlier Site Assessment

Location: Pulliam's Grocery  
US 29 Business  
Reidsville, NC 27320

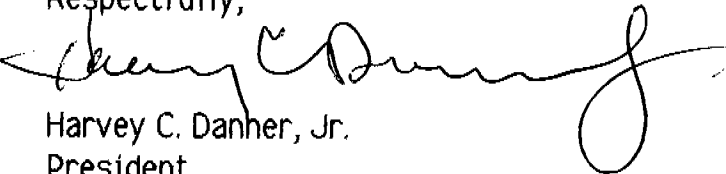

Per a request by the Winston-Salem DEM office, an additional soil sample was obtained at the point designated as #4A on the enclosed detail map. The sample was taken at a depth of 4' from undisturbed soil following the same procedures as set in the earlier report.

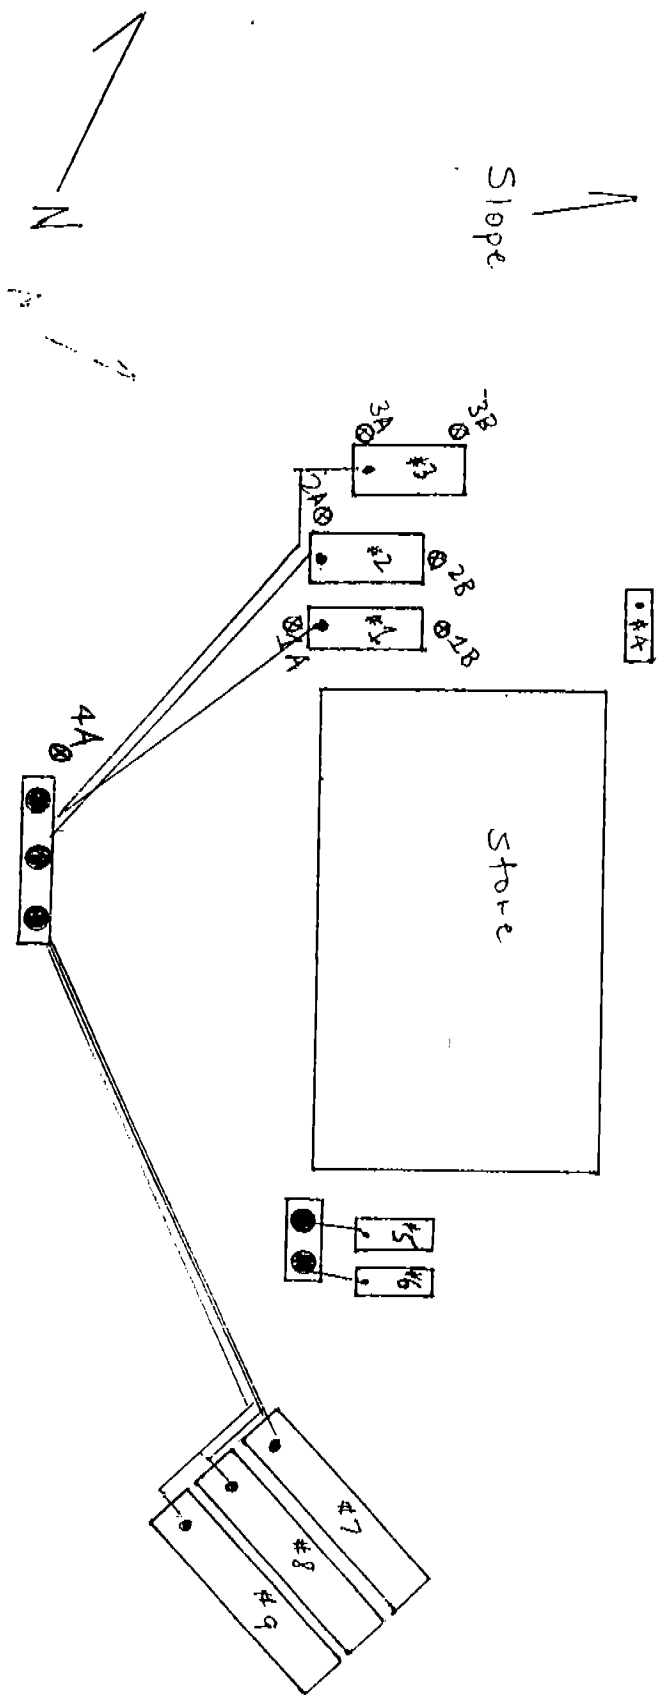

A flame ionization reading was taken on site and registered 40 ppm TPH. Lab analysis was per SW-846/EPA 5030 and gave a TPH level of <1.0 ppm.

Original lab report, chain of custody, site map and analysis request form accompany.

Please refer any questions to me at 919/659-8777. This report is signed and dated the 29th of March, 1991.

Respectfully,

  
Harvey C. Danher, Jr.  
President

U.S. 29 Bus.
